

Synergy 21 car smartphone holder with wireless charging function

Synergy 21 USB car charger from the ALLTRAVEL series

Modern car smartphone holder with wireless charging function:
A movement within the sensor (8 cm distance) opens the arms.
Once you have placed the smartphone in the holder, the arms close automatically.
When you touch the marked back of the holder, the arms open again.
The mobile phone is charged wirelessly in the meantime. (qi)
A USB A to USB C cable must be connected for charging. (is included)
Watt: 10W
Volt: 5V
Ampere: 2A
