THE OUTLET(S) WITH SURGE PROTECTION FOR ELECTRICAL DEVICES

Surge protector with MOV technology to protect various home and office electronics

Ideal for home and office, the Professional Series safeguards connected equipment against surge and spike. The professional surge protectors include surge protected outlets for distributing power to multiple devices. The products are designed with Metal Oxide Varistor (MOV) technology to absorb surge which is caused by storms and lightning, therefore offering protection for equipment and devices. They also provide overload protection, noise filters and computer-grade protection to enhance safety for your devices.
